---

- 2001 – 2002                      *Uses of Bioglass for Orbital Volume Augmentation in Enophthalmos: An Animal Model* . A rabbit study to investigate the clinical and histologic response, and the utility of Bioglass (NovaBone®) in the treatment of enophthalmos.  
Brooke Army Medical Center, San Antonio, Texas
- Thyroid Antibodies in Association with Thyroid Ophthalmopathy*.  
Prospective age matched, case control study to assess various thyroid autoantibodies and thyroxine binding globulin in the diagnosis of thyroid ophthalmopathy.  
Brooke Army Medical Center and Wilford Hall Medical Center, San Antonio, Texas
- PET Scanning in Essential Blepharospasm*.  
Prospective age and gender matched, case control study to investigate and localize differences in glucose metabolism within the brain between patients with essential blepharospasm and controls using positron emission tomography (PET) neuroimaging.  
Brooke Army Medical Center and Wilford Hall Medical Center, San Antonio, Texas
- 1998 – 2000                      *Porous Polyethylene Keratoprosthesis with a Titanium Covered Optic: A Rabbit Model* (ASOPRS thesis).  
A rabbit study to investigate the clinical and histologic response to a new design of keratoprosthesis with a biocolonizable porous polyethylene (MEDPOR®) supporting skirt and an acrylic optic surrounded by bioinert medical grade titanium.  
Texas Oculoplastic Consultants, Austin, Texas and Brooke Army Medical Center, San Antonio, Texas
- 1995 – 1998                      *Tripler Tele-Ophthalmic Deployment (TTOD) Project*.  
Proposal for telemedicine network with outlying clinics on Oahu, Molokai'i, and Kwajalein Atoll in the Marshall Islands to establish baseline requirements for tele-ophthalmology (\$200,000 grant).  
Tripler Army Medical Center, Honolulu, Hawaii
- 1991 – 1994                      *Mood and Behavior Changes with Topical Ophthalmic Beta-Adrenergic Blockade*.  
To determine if topically administered beta-adrenergic blockers (timolol maleate) have an effect on subjective mood.  
Walter Reed Army Medical Center, Washington, DC
- 1988 – 1989                      Research Assistant for Barrett G. Haik, M.D., F.A.C.S., Professor of Ophthalmology.  
Worked on case reports on the ocular manifestations of Osteopetrosis.  
Tulane University School of Medicine, New Orleans, Louisiana
